1 in 3 Americans have no retirement savings at all, this is shocking. The typical advice is that you should aim to replace 70% to 90% of your annual pre-retirement income through savings and Social Security. For example, a retiree who earns an average of \$63,000 per year before retirement should expect to need \$44,000 to \$57,000 per year in retirement.

Prosperment.com helps you maximize your money and master life's financial journey by helping you choose the right investment platform so you can live better and invest in your future.

Our tools and advice make it easy to compare and choose the best investment platforms (think investing, micro-investing, retirement, and financial planning) and tackle major life goals, like buying a house and saving for retirement.

There's a financial decision to be made at nearly every stage of life. Prosperment.com offers the expert advice and tools you need to make those decisions with confidence.
